RESEARCH INTERESTS

Somehow, our minds make sense of sensory data in a way that eludes current machine vision systems. I study visual perception in humans, and compare the inferences of humans and machines to gain stronger insights into both biological and artificial seeing. My research program combines the traditions of experimental psychology and psychophysics with recent advances in AI and machine learning. I aim to understand the computational principles that underlie our brains' ability to combine sensory inputs to generate holistic perceptual experience ("why things look as they do"; Koffka, 1935). I study, or have previously studied, scene appearance, eye movements, crowding, motion-induced blindness, binocular rivalry, contrast perception, macular degeneration, and hazard perception in driving. I do my best to make my research reproducible and encourage open scientific practices.

EDUCATION & EMPLOYMENT

2021–Present

Full Professor (W3) of "Perception"

Centre for Cognitive Science and Institute of Psychology, Technical University of Darmstadt

2023–Present

Member, Center for Mind, Brain and Behavior (CMBB)

Universities of Marburg, Giessen and Darmstadt

01/2019–03/2021

Senior Research Scientist

Amazon Development Center Germany GmbH

01/2017–05/2019

Project Leader, Collaborative Research Centre (SFB) 1233 "Robust Vision"

Centre for Integrative Neuroscience, The University of Tübingen

06/2018–10/2018

Parental leave

10/2017–10/2018

Acting Professor (Vertretungsprofessor, W3)

The University of Tübingen

2013–2016

Humboldt Postdoctoral Fellow, Bethge & Wichmann Laboratories

The University of Tübingen

2011–2013

National Health and Medical Research Council of Australia (NHMRC) Training Fellow

Bex lab, Schepens Eye Research Institute, Harvard Medical School

2010–2011

Postdoctoral Fellow (NIH grant EY019281)

Bex lab, Schepens Eye Research Institute, Harvard Medical School

2007–2010

PhD (Psychology)

"Pencils and erasers: Interactions between motion and spatial coding in human vision"

Advisor: Prof. Derek Arnold. Associates: Prof. Jason Mattingley & Prof. Ottmar Lipp.

The University of Queensland, Australia

2001–2004

Bachelor of Psychological Science (Hons I)

Undergraduate thesis title: "Hazard perception in driving". Advisor: Prof. Mark Horswill.

School of Psychology, The University of Queensland (Australia)

AWARDS AND FUNDING

- 2023 European Research Council Consolidator Grant, 2023–2028, 2.1 mi €
- 2022 Networking grant for collaboration between Hesse, Queensland, Massachusetts and Wisconsin (Vernetzungsaktivitäten mit Universitäten der Landesprogramme in Wisconsin, Massachusetts und Queensland; Hessisches Ministerium für Wissenschaft und Kunst); 11,250 €.
- 2018 Teaching award from the Graduate Training Centre for Neuroscience, Uni Tübingen (awarded by GTC Masters students for the course “Psychophysics and Non-invasive Methods”, Summer Semester 2018).
- 2017–2020 Project leader, Collaborative Research Centre (Sonderforschungsbereich) 1233 “Robust Vision” (approx. €8 mil. for 14 projects over four years; my project €276,400)
- 2013–2016 Humboldt Research Fellowship for Postdoctoral Researchers (extended to three years due to parental responsibilities)
- 2013 Marie Curie International Incoming Fellowship, declined in favour of Humboldt fellowship
- 2010 NHMRC Postgraduate Training Award. \$394,559 support over four years (relinquished after two, to move to Germany)
- 2008 Winner, Postgraduate Student Research Excellence Award, School of Psychology, The University of Queensland
- Australasian Experimental Psychology Conference Student Award
- Selected to attend the European Visual Neuroscience Summer School, Rauischholzhausen, Germany
- 2004 University Medal for undergraduate degree (awarded to the top 1% of UQ graduates annually). Equivalent to *Summa Cum Laude*.

PATENTS

I am a co-inventor on the following US Patents. In all cases, the patent holder is Amazon Technologies, Inc., and I have relinquished all intellectual ownership rights over these technologies.

- 2023 Wallis, T. S. A., Staudigl, L., Javed, M. B., Barbachano, P., & Mueller, M. (2023). Perceived media object quality prediction using adversarial annotations for training and multiple-algorithm scores as input (Patent No. US11544562).
- 2022 Staudigl, L., Wallis, T. S. A., Mueller, M., Javed, M. B., & Barbachano, P. (2022). Iterative media object compression algorithm optimization using decoupled calibration of perceptual quality algorithms (Patent No. US11527019).
- Sternig, S., Staudigl, L., Barbachano, P., Wallis, T. S. A., Javed, M. B., & Donoser, M. (2022). Image cropping using pre-generated metadata (Patent No. US11361447).

WORKSHOP PUBLICATIONS

2019

Borowski, J., Funke, C. M., Stosio, K., Brendel, W., Wallis, T. S. A. & Bethge, M. (2019). The Notorious Difficulty of Comparing Human and Machine Perception. *NeurIPS Workshop on Shared Visual Representations in Human and Machine Intelligence*. ([Link](#)). [Best paper award]

PREPRINTS (UNREVIEWED)

2017 Gatys, L. A., Kümmerer. M., Wallis, T.S.A. & Bethge, M. (2017). Guiding human gaze with convolutional neural networks. *arXiv:1712.06492* ([link](#))

INVITED TALKS AND GUEST LECTURES

2025 Keynote speaker, Scottish Vision Group annual meeting, Loch Lomond (UK). “Artificial neural networks as tools for understanding vision”. April 4, 2025.

2024 Durham University (UK) Centre for Vision and Cognition (online). “Reflections on using current generative AI systems for scientific workflows”. December 2, 2024.

Vision Sciences Society (VSS) Postdoc and Student-organized panel event “Unveiling the potential of AI in understanding human vision with ethical integration”. My talk: “Reflections on using current generative AI systems for scientific workflows”. May 18, 2024.

2023 School of Psychology, The University of Queensland. “Artificial neural networks as approximate upper bounds on performance”. August 25, 2023.

The Adaptive Mind Annual Retreat, Rauschholzhausen. “The perception of causality in launching displays”. June 7, 2023.

Neural Information Processing group, Universität Tübingen. “Artificial neural networks as approximate ideal observers”. February 3, 2023.

Department of Psychology, Justus-Liebig-Universität Gießen. “Artificial neural networks as approximate ideal observers”. January 11, 2023.

2022 Rhein-Main Neuroscience Network Annual Retreat, Oberwesel. “Scene appearance and understanding”. June 9, 2022.

2020 Keynote speaker for Workshop on Eye Tracking for Quality of Experience in Multimedia (ET-MM) “Predicting eye movements in images and video: Recent progress and future challenges”. June 2, 2020. Workshop part of ACM Symposium on Eye Tracking Research & Applications (ETRA). [Workshop website](#).

2019 Invited tutorial at the 2019 European Conference on Visual Perception “Bayesian mixed-effects models for psychophysical data: A tutorial with R and brms”. August 25, 2019. [Tutorial materials](#).

2016 Medical Research Council Cognition and Brain Sciences Unit, Cambridge UK. “Deep features capture natural image statistics important for human perception”. October 19, 2016.

Twitter Cortex (Twitter Inc.), London UK. “Deep features capture natural image statistics important for human perception”. October 18, 2016.

2014 Department of Psychology, Ludwig-Maximilians-Universität München. “Probing peripheral visual representations”. November 19, 2014.

2013 Centre for Perception and Cognitive Neuroscience, The University of Queensland. “Sensitivity to gaze-contingent modifications of image structure in freely-viewed naturalistic movies: contrast and spatial distortions”. April 2013.

2012 Radcliffe Symposium, Harvard University. “Reading: Clinical Rehabilitation and Neuro-Plasticity”. September 17–18, 2012.

2008 Dean’s Scholars’ Seminar, The University of Queensland. “Moving objects can alter your consciousness”. 2008.

TEACHING

2022 “Wahrnehmen”, TU Darmstadt (6 SWS; B. Cognitive Science)

“Foundations of Cognitive Science”, TU Darmstadt (2 SWS; B.Sc Cognitive Science)

“Advanced topics in visual perception”, TU Darmstadt (2 SWS; M.Sc Cognitive Science)

“Applied Cognitive Science”, TU Darmstadt (4 SWS; M.Sc Cognitive Science)

2021 “Wahrnehmen”, TU Darmstadt (8 SWS; B.Cognitive Science)

2018 Teaching award from the Graduate Training Centre for Neuroscience, Uni Tübingen. Awarded by students for “Psychophysics and Non-invasive Methods”, Summer Semester 2018.

“Psychophysical Methods” (2 SWS; M.Sc)

“Colour Vision and Material Perception” (2 SWS; M.Sc)

“Psychophysics and Non-Invasive Methods” (2 SWS; M.Sc)

2017 “Visuelle Wahrnehmung für Informatiker” (4 SWS)

2015 “Advanced Statistics for Graduate Students”, Graduate School, The University of Tübingen (with Philipp Berens). [Course materials available here](#).

2009 Guest lecturer, “Sensory Neuroscience”, School of Psychology, The University of Queensland (Prof Jason Mattingley)

2007 Lead Tutor, “Research Methodology and Statistics I”, School of Psychology, The University of Queensland

2007 Tutor, “Research Methodology and Statistics I”, School of Psychology, The University of Queensland

THESIS SUPERVISION

2017– Co-supervisor (with Matthias Bethge) of PhD students Christina Funke and Judith Borowski.

2018 Supervisor of Bachelor student project Freya Thießen, Masters rotation Marlene Weller.

2017 Supervisor of Bachelor student projects Anna Giron and Wiebke Ringels, Masters rotation Jonathan Oesterle.

2016 Co-supervisor (with Matthias Bethge) of M.Sc. student Christina Funke.

Co-supervisor (with Felix Wichmann) of Bachelor thesis student Britta Lewke.

Co-supervisor (with Matthias Bethge) of undergraduate intern Cordula Markert.

2014 Co-supervisor (with Felix Wichmann) of M.Sc. student Saskia Tobias.

Co-supervisor (with Matthias Bethge) of undergraduate intern Annelie Mühler.

PROFESSIONAL SERVICE & OUTREACH

INSTITUTIONAL SERVICE

Member of the Faculty Council (Fachbereichsrat) for the Department of Human Sciences, TU Darmstadt (01.10.2021–).

Member of the Finance and Structure committee of the Department of Human Sciences, TU Darmstadt (01.10.2023–).

Member of the Doctoral examination committee of the Department of Human Sciences, TU Darmstadt (01.10.2023–).

Member of the examination board (Prüfungskomission) for Cognitive Science, Department of Human Sciences, TU Darmstadt (2023–).

Internationalisation Officer (Internationalisationsbeauftragte; joint with Loes van Dam), Department of Human Sciences, TU Darmstadt (2021–2023).

Overseas exchange officer (Auslandsbeauftragten; joint with Loes van Dam), Department of Human Sciences, TU Darmstadt (2022–2023).

EXTERNAL EXAMINATION AND ASSESSMENT

External reviewer for the M.Sc. “Computational Neuroscience” of the Universität Tübingen, 2023.

External examiner for the Doctoral degree of Christina Funke. Universität Tübingen, 13.11.2023.

External examiner for the Doctoral degree of Judith Borowski. Universität Tübingen, 24.10.2022.

External examiner for the Doctoral degree of Robert Geirhos. Universität Tübingen, 08.02.2022.

BOARD & SOCIETY MEMBERSHIPS

Board Member, Psychology in Open Access (<http://psyoa.org>)

Member, Vision Sciences Society

Member of the Board of Reviewers, Journal of European Psychology Students (JEPS)

EDITING & REVIEWING

I am an Editorial Board Member of Journal of Vision (since Jan 2023).

I have acted as a reviewer for the following venues at least once.

ACM Transactions on Applied Perception, Biology Letters, Cognitive Computational Neuroscience (CCN) Conference, Current Biology, European Conference on Computer Vision (ECCV), Frontiers in Perception Science, Investigative Ophthalmology and Visual Science (IOVS), International Conference on Learning Representations (ICLR), Journal of Vision, Nature Communications, Neural Information Processing Systems (NeurIPS), Perception, Perspectives on Psychological Science, PloS Computational Biology, Proceedings of the National Academy of Sciences (PNAS), Psychological Review, SIGGRAPH Asia, Vision Research.

Exceptional reviewer Journal of Vision 2013, 2014, 2015, 2016, 2018 (×3), 2020, 2021, 2022

Exceptional reviewer Investigative Ophthalmology and Visual Science (IOVS) 2015.

WORKSHOP AND COMMITTEE SERVICE

10/2016

Co-organiser of a workshop for early career vision scientists “What have vision scientists learned in the past five years?”, Cambridge, UK.

SCIENTIFIC OUTREACH

2023 & 2024

Co-organiser, Center for Cognitive Science and The Adaptive Mind Girls' Day (German high school students see non-gender-traditional career path opportunities). <https://www.girls-day.de>.

2022

Invited panellist, Applied Vision Association (AVA) Spring meeting: Careers of visual scientists

CV based on template by [Bastian Rieck](#).
